SAFETY PRECAUTIONS

Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury

	Do not use wireless phones while driving.
	Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.
	Do not use mobile phones where blasting is in progress. Follow regulations and rules strictly.
	Do not use mobile phones at a refueling point. Don't use near fuel or chemicals
	Follow regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.
	All wireless devices may get interference that could affect performance.
	Only qualified service personnel can install or repair this device.
	Use only approved accessories and batteries.
	Use only in normal conditions. Do not expose your phone to extreme high temperatures above +60°（+140°F）. Do not use anything static to clean your phone.
	Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.

Improper use will invalidate the warranty! These safety instructions also apply

to original accessories.

a) Use a wireless hands-free system (headphone, headset) with a low power Blue tooth emitter.

b) Make sure the cell phone has a low SAR.

c) Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women.

d) Use cell-phone when the signal quality is good.

e) People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.
